Grilling technology at its zenith—this is Echelon. In fact, few moments can compare to the first time you gaze upon an Echelon grill and its incredible array of features—from our **signature double walled teardrop hood** and **polished comfort touch control knobs** to our industry best **cast stainless steel "E" burners**. And that's just to get the fire started as Echelon elevates outdoor cooking to a level all its own—incorporating state-of-the-art features such as a **push button hot surface ignition** that will ignite in any weather, **internal halogen lights with auto-off switch**, **recessed rotisserie backburner**, **heat zone separators** to allow foods to be grilled at different temperatures, a **built-in digital LCD meat and multi-zone grill thermometer**, and a **watertight woodchip smoker drawer with its own dedicated burner**. The result is a grill that burns hotter and grills better than any other. The Echelon Collection—alone at the top, this grill will most certainly be the crowning centerpiece of your outdoor kitchen and lifestyle.

Incorporating the latest innovations in outdoor cooking technology, our newest collection of premium grills is everything you've come to expect from Fire Magic—boasting many of the same industry-exclusive features and warranties that distinguish our top-of-the-line Echelon grills. And still, Aurora burns bright with its own list of features that includes a **push button 9-volt battery operated ignition system**, a **stainless steel valve manifold**, and a **built-in digital thermometer with meat probe**. An **infrared burner** and **recessed rotisserie backburner with heavy-duty rotisserie kit** are also offered. The Aurora Collection—like a brilliant light in the evening sky, this grill is destined to be the shining star of your outdoor kitchen.

* BOTH COLLECTIONS AVAILABLE AS STAND-ALONE CARTS.
